

**BEACON RANCH**  
EDUCATION, SERVICE, ADVENTURE

Hello Friends,

Spring is just around the corner and we cannot wait to get plants and seeds in the ground. Beacon Ranch summer produce offerings were in high demand last year and this year has already brought about ample opportunities to expand our customer base. Rest assured that we will not grow beyond our capacity to serve our existing friends with excellence.

In order to best serve our customers, Beacon Ranch sells summer products through our community supported agriculture (CSA) buying club. Membership will be limited to ensure adequate quality and quantity of product to members. Over the summer, each member will receive an estimated five boxes of produce (delivered weekly or bi-weekly) that will contain various in season veggies, eggs, and perhaps some meat. Deliveries expected to occur between June and August 2015.

All products will be directly from Beacon Ranch unless otherwise noted. Beacon Ranch strives to farm as naturally and sustainably as possible. Our fresh veggies are non-GMO and our animals are raised humanely on pasture without the routine use of antibiotics and de-wormers. Hormones are never used in production of any Beacon Ranch product.

Sound like something you are interested in? We would be honored to have you partner with us. Space is limited and members are accepted on a "first come, first serve" basis. The 2015 membership fee is \$100 and due upon receipt of attached application. Members are encouraged to volunteer a couple hours this summer to see and experience what goes on around Beacon Ranch.

Thank you for letting us serve you.
